

APRN COMPACT

Facts about the APRN Compact

Issue

Modern health care delivery requires that safe and quality care provided by advanced practice registered nurses (APRNs) be dynamic and fluid across state boundaries. The 100-year-old model of nursing licensure is not flexible, enough to best meet this need.

Solution

The Advanced Practice Registered Nurse Compact (APRN Compact) increases access to care, protects patient safety and reduces costs while supporting state-of-the-art health care delivery. The APRN Compact allows for APRNs with 2,080 hours or more of practice to have one multistate license in their home state, with the privilege to practice in other APRN Compact party states without obtaining additional licenses. To join the APRN Compact, states need to enact the APRN Compact model legislation and implement a federal criminal background check for APRN licensure.

Safe and Efficient

- Facilitates the protection of public health and safety by:
 - Codifying uniform licensure requirements mirroring the national APRN Consensus Model to ensure applicants meet licensure standards for participation.
 - Facilitating the exchange of information between party states in the areas of APRN regulation and investigation whenever an issue arises.
 - Ensuring that party states have the authority to hold an APRN accountable in meeting state practice laws.
- Encourages efficiency by:
 - Decreasing redundancies in applying for and maintaining multiple APRN licenses.
 - Promoting and encouraging interstate practice by APRNs.
